

About us

Herbert

We provide customers with innovative technological solutions that enhance process, workflow and business productivity.

HERBERT

250 years of innovative productivity solutions

Let us tell you more

Heritage

We started in London in 1760, offering exceptional butchery knives. Over the years we have expanded from humble beginnings in Cheapside, to a countryside location (Haverhill) close to Cambridge, and we have also expanded the product solutions that we offer, moving in to weighing and labelling solutions, and then in to hardware and software solutions.

We are now an established provider of class-leading solutions to major organisations in fast moving industries in the UK, providing clients with solutions that give them the competitive edge.

Our Focus

We have a simple and effective business focus:

Provide customers with innovative technological solutions that enhance process, workflow and business productivity.

We are all about listening to customer needs and offering innovative solutions.

Our Solutions

We form strong partnerships with global technology leaders, so as to implement consultatively chosen solutions, all delivered with our class-leading installation and support.

Our products can be categorised as follows:

Digital Merchandising

Food processing

Weighing & Labelling

Software

In-building Distributed Antenna Systems

Payment & Collection

Services

Our Markets

We cover a wide range of markets, where we have implemented a variety of solutions:

Retail

Warehousing, Transportation and Logistics

Postal and Courier

Healthcare

Local Authorities

Manufacturing

Our People

Our people are our future. We have dedicated teams covering areas such as Sales, Marketing, Technical, Commercial, Accounts, Human Resources, Production, Purchasing and Customer Service & Support, to name just a few.

We are fortunate enough to have a dedicated team of field-force engineers covering the length and breadth of the UK and Ireland, ensuring that our solutions are installed and maintained at all times, and a dedicated Call Desk, keeping our customers happy night and day.
