

Apex AnyWhere™ Self-Serve Solutions

Powered by Apex Connect n' Go™ Technology

Apex Access™ 6000 Series Automated, cloud-based self-serve lockers for DC and POS handheld device management

Secure Access

Control access based on job roles, departments and more

Versatile Compartments

Manage, track and control DC or POS scanners, two-way radios, tablets and other mission-critical devices

Supports a Wide Range of User ID

Choose from barcode, magnetic stripe, proximity cards or keypad entry

Keep Assets Charged

Compartments can be wired to recharge devices so they're always ready to work

- **Keep your DCs ready for "real-time retail"**

With mission-critical devices organised and ready to work 24/7, your teams stay productive and perform at their best.

- **Secure check-out and check-in**

High-cost scanners, tablets and radios can be checked out, their usage recorded, and checked back in. You will always know when an item has been checked out, and when it was returned. You can set loan periods and notification alerts for overdue items.

- **Increase accountability and responsible use**

Ensure better care of expensive devices and reduce loss and damage. Battery-powered devices can be set to recharge upon return and locked down until they're fully charged and ready to work.

- **Manage service, inspection and repair**

Receive automated alerts when devices are due for scheduled service or inspection, or are in need of repair.

1 Choose from our space-saving internal controller or versatile stand-alone controller.

2 Place lockers within easy reach with a pedestal, sold separately. Shelves are available for extra storage.

Choose From a Variety of Flexible Configurations

AXCESS 6017
17-Door Locker
Weight: 175 kg

AXCESS 6021
21-Door Locker
Weight: 186 kg

Trajectory Cloud™: Real-Time Control, Tracking and Insights

Our Trajectory Cloud™ platform makes these smart devices absolutely brilliant. You'll know who used what, when and where, 24/7. And you can set up automated alerts and notifications to reinforce established processes and monitor activity patterns. Plus, the electronic audit trail provides detailed documentation for automated compliance management.

Apex Connect n' Go™ Technology Makes It Easy to Implement

All Apex devices are easy-to-use Internet appliances (MS Windows-free). They're powered by our Connect n' Go™ Technology, so you simply plug the device into a power supply, connect to the Internet and you're ready to go.

Easy to Use. Easy to Implement. Easy to Afford.
